

Proposed Amendment to Chapter 189 of the Village Code of the Village of Plandome Manor

§189-1 **NEW SUBSECTION (E)** - No person shall open or make any excavation in or under the surface of any street, avenue, road, parkway or highway within the Village over which the Village has jurisdiction within five years of the road being constructed, opened, reconstructed and/or repaved unless good cause is shown to the Board of Trustees that the excavation is necessary, that alternative methods will not accomplish the permittee's objective, and without first obtaining written permission therefor from the Board of Trustees and the Village Clerk, to whom there shall be made a formal application for each excavation.

§189-2(A) Every street opening permit shall provide that the applicant shall maintain such opening in a safe condition and shall, as soon as practical, backfill or cause to be backfilled the opening and shall place thereon such temporary pavement as shall be approved by the Street Commissioner and/or Building Inspector, which pavement shall be cared for by the applicant until such time as the Street Commissioner and/or Building Inspector shall decide that proper settlement to allow the laying of a permanent pavement has taken place; such time, however, shall not exceed 12 months. ~~Pavement shall be repaved and/or restored from the curbline or grass line to the midpoint of the road.~~ Pavement shall be repaved and/or restored from the curb line or grass line to the opposite curb line or grass line of the road and for two feet in either direction of the cut pavement.
